REMARKS

jsw,
 we are quite pleased the way the building work for the [] has come along. Quite possibly by the time you get this, the fax equipment will have arrived. Anyhow we are ready for it. I just hope that it gets here before [] does. The whole set-up is quite commodious, especially the [] area and the new [] The Viets and [] lost a little space, but they are small folks (and hopefully an upcoming promo for peter will more than compensate). And with all that, the place looks good too. So i guess we will have to say that [] is as good a "master builder" as []....
